Subject: TO 10 CNPA Kabul - structural calculations missing
Attachments: Structural calculations index.pdf

Dear Sirs,

We have received a very serious comment on the TO 10 100% design submittal that was not noticed until now.

There are no structural design calculations for the following buildings:

- Dining Facility
- Guard House
- Guard Towers
- Guard Shack
- Ammunition Supply Point
- Booster Pump Building
- Well House
- Generator Room Building

ECCI needs these calculations immediately.
How soon can we receive them?

Regards
Joe H.
